

IS-700 and IS-100 Online Instructions

Open your internet browser.

Turn on your Pop-Up Blocker

In Microsoft Internet Explorer, click Tools, Pop-Up Blocker, and click Turn On Pop-Up Blocker.

This will enable the various lessons to pop up in new windows.

Enter the URL: <http://training.fema.gov> and hit enter

In the green bar toward the top of the page, click on FEMA Independent Study

In the red box, click on NIMS Courses

Scroll down until you see the links to IS-100 (ICS 100) Introduction to Incident Command System, I-100 and IS-700 National Incident Management System, (NIMS), An Introduction

Take the IS-700 course first

Select Option 1: Interactive Web-based course – EMI learning site (either option is acceptable, but this one is a bit easier to navigate for most)

If you click on a lesson and nothing happens (another window fails to pop-up), do this:

Click “refresh” on your browser

Once the screen has refreshed, hold the Ctrl key while you click on the lesson.

This should allow the new window to pop up and the lesson to begin.

FEMA will email you the results. Please forward that email to:

Ablenkush@rogucecc.edu

If you continue to have trouble, feel free to contact Arlen Blenkush
