

FAQ's about Degree Audit

Why aren't my courses where I think they should be?

If you believe your audit isn't correct, make an appointment with your advisor to go over your results. Also, read the details for each section on the [program advising guide](#) for further information.

When I try to access Degree Audit, why does it say there is an error?

1. If you have forgotten the log-in to your Rogue account, you will need to have it reset. Call Rogue Central at 245-7501 or 956-7501 to reset your password.

2. If you did log-in and aren't able to access your audit, there are times when the Degree Audit site may be down for updates and you will need to try again later. If this problem persists, contact Enrollment Services at 956-7427.

I don't have internet at home; can I have an audit mailed to me?

Your audit can be retrieved from any place you can access the internet. You can visit any Rogue Campus and log on to one of the computers for student use. We do not mail Degree Audits.

Now that I have completed another term, can I see where the new courses I completed have applied in my audit?

Yes, each term after grades have posted, you can update your audit. Log-in to your Degree Audit homepage, from the "**Restore an Audit**" box, select the audit you wish to update and then select "**Restore Audit**". When your audit appears, select "**Rerun Audit**" located at the top right hand side.

Why does my audit have a different GPA than what is on my transcript?

The GPA on your Degree Audit is based only on the courses which applied to your specific degree or certificate.

Why are there only 12 credits of "Courses in Progress" on my audit, when I am enrolled in 15 credits?

Only courses which apply to your program will appear on your audit. If you believe there is a course missing that should be applied, check with your advisor.

Where are my courses from other schools, AP, CLEP or Credit from Prior Learning?

You will need to complete the Transfer Credit Evaluation Request to have those courses applied. In order to receive AP or CLEP credit, your official report from [College Board](#) must be on file with our office and you must complete 12 credits at Rogue.

What does "Select Alternate Path" mean and why is it listed under some of the requirements, but not all of them?

"Select Alternate Path" is listed under requirements which you can fulfill multiple ways. When you choose "Select Alternate Path" a pop-up box will appear with course lists that will fulfill the requirement. First, uncheck the default course list and then, check the box for the course list you plan to complete and "Submit". Your audit will then reload and include the customized course list you selected.
